CLC Vision and Mission

Vision

Lead a new era of delivery in the Built Environment

Mission

Working in partnership with industry, clients and Government we will develop an industry that has the capability, capacity and resilience to:

- Support the industry to respond to the current economic challenges
- Drive growth and investment
- Promote the industry
- Improve productivity through digital adoption, industrialisation and innovation
- Successfully manage the sector's transition to Net Zero
- Create improved societal outcomes

Strategic Priorities – 4 Themes

Building Safety

Champion and support delivery of safe & high quality buildings

Net Zero & Biodiversity

Accelerate the sector's transition to Net Zero and mitigate the impacts of climate change

People & Skills

Energise our people, attract talent and enhance their skills for the future

Next Generation Delivery

Boost productivity through digital adoption and industrialisation

Next Generation Delivery

Boost productivity through digital adoption and industrialisation

- Champion the implementation of the construction playbook principles to deliver:
 - better value to society and resilient Business Models throughout the industry
 - fairer practices including retentions, payment performance and contractual clauses
- Lead deployment of Digital and data standards & simplify the current digital construction landscape so it works for all (including SMEs)
- Deliver ways to better digitally connect the construction supply chain
- Promote Platform & MMC deployment

Thank you for listening

Construct ZERO
The Construction Industry's Zero carbon change programme
