

Energy Transition Revolution

Powering the new age of project delivery

Energy Transition Projects – Challenges or Opportunities?

How can the Engineering and Construction industry overcome the challenges, benefit from the opportunities and not disappoint Net Zero stakeholders?

It can be done! It is being done!

European Construction Institute & Constructing Excellence are hosting FREE monthly on-line explorative discussions to which all industry sectors are welcome and wanted.

Our aims:

identify innovation

determine changes
required

consider successful
project delivery

create project delivery
guidelines

We aim to identify the innovative processes, practices and tools necessary to assure effective project delivery to meet the demands and expectations of Net Zero stakeholders.

European Construction Institute & Constructing Excellence are hosting FREE monthly on-line explorative discussions to which all industry sectors are welcome and wanted.

Our aims:

identify innovation

determine necessary
changes

consider successful
project delivery

create project
delivery guidelines
