Delivering Tomorrow Today: Act Now for a Better Future

Delivering Tomorrow Today: Act Now for a Better Future

With so many drivers for change in the built environment, the risks of inaction outweigh the opportunity to do things better. On so many issues, from climate change through skills shortages and inflation through to building safety, many of the solutions exist but organisations are failing to act at the scale and pace required to deliver the required shift in performance.

A sense that the optimum solution lies somewhere in the future and too many options can lead to procrastination and inaction. We owe it to our future selves and future generations to act now. **The future can't wait!**

Learn from those who are delivering tomorrow today...

Acting now doesn't mean a step into the unknown. There are projects and organisations who are blazing a trail for us all to follow. During this conference we will delve into leading-edge practice, learn from those who are doing it already and explore how we can learn from and build upon their leadership.

We will be exploring some of the emerging areas of best practice in line with our theme groups including Future Climate, Procurement, Performance Measurement, Manufacturing & Technology. Bringing together leading thinkers and those who are delivering real change on their own projects including Constructing Excellence award winners and members.

Connect

Creating new and re-enforcing existing connections is a key part of the conference. Lots of time and space is dedicated to allow participants to interact and strengthen the networks vital to drive a better construction industry.

Insight

Participants gain insight into the latest thinking and drivers of change across the sector.

Inspire

Through best practice and leading edge examples we inspire participants to embrace better ways of working and implement change in their organisations and projects.

Event Details

Panel Discussions

1. Future Climate

We will take a deep dive into the role our industry plays in minimising and mitigating against future climate change. We will look at what leading organisations are doing now to minimise their carbon footprint and climate impact and what we can all do in our organisations to deliver better future climate outcomes.

2. Future Society

How do we shape a better industry for the people who work in it? How do we shape a built environment that supports people better? What can we do today to deliver that in the future. In this session we will bring together leading practitioners who are at the forefront of this journey.

3. Future Major Projects

Major Projects have the scale and longevity to accelerate innovation and push productivity. In this session representatives from the CE Major Projects group will explore the role that Major Projects can play in modelling the future and how that can be transferred more widely across the sector.

4. Future Delivery

We can't deliver excellence with a broken industry. In this session we will be looking at the transformative factors that we need to embrace to deliver a better future industry. From better procurement through the Gold Standard, better use of data through performance measurement and unlocking industrialised construction the building blocks are in place for better future delivery.

Where and When

Where: BMA House, Tavistock Square, London, WC1H 9JP

When: Wednesday 24th January 2024

Tickets

£225 +VAT

National Organisations: 2 free places thereafter tickets available at 50% discount

Regional Centres: 2 free places thereafter tickets available at 50% discount

Clubs: 1 free place thereafter tickets available at 50% discount

G4C members: 75% discount

09:15	Registration & Networking
10:00	Welcome & Introductions
10:10	Future Climate
11:10	Coffee & Networking

16:00	Close

Get Involved

We are looking for **sponsors** and **partners** to help us set the theme and programme for our 2024 conference. Now is the time to help us shape this key event.

Sponsorship Opportunities

Headline Sponsor

- Headline branding on all conference related promotions
- Headline branding on conference brochure
- Social media profiling via Twitter and LinkedIn
- Article in the Constructing Excellence website and newsletter
- Display of your company logo on screens in the conference and hybrid streaming
- 5 free tickets to event
- An exhibition stand in the reception/lunch area with promotional material plus a pop up banner by the stage
- Social media – retweet all sponsor tweets
- Referenced in all post event communications, including social media and online communications

Gold Sponsor

- Announcement of conference sponsorship in CE Newsletter and displayed on the CE website
- Branding on conference related promotions
- Social media profiling via Twitter and LinkedIn
- An exhibition stand in the reception/lunch area with promotional material
- 3 free tickets to event
- Referenced in all post event communications, including social media and online communications

Exhibitor

- Exhibition stand in the reception/lunch area with promotional material
- Listing on conference website
- For discussion - option of sponsored private breakfast or dinner the night before
