# Constructing Excellence

## October Newsletter

### Welcome

Hello and welcome to the October edition of the CE Newsletter. We are busily preparing for the [Awards](#) in November and our [National Conference](#) in January.

I'm really excited about the January conference where we will be looking at **Delivering Excellence** through three lenses - **Better for the Planet, Better for Society and Better for the Bottom Line**. Please drop me a line if you want to explore how you can get involved - lots of opportunity to showcase the great work that is happening across the movement.

We have some excellent theme group events coming up next month including the [Offsite Manufacturing & Technology Group](#) looking at how the Building Safety Act could drive industrialised approaches to construction and a deep dive into how the principles of Constructing Excellence can be applied to the successful delivery of the [energy transition](#).

Lots coming up so as ever get in touch to find out more about how you can be involved.

Best wishes,  
Alison Nicholl  
*Head of Constructing Excellence*

## News & Insights

# Constructing Excellence Awards 2024

### Constructing Excellence National Awards 2024

The Constructing Excellence National Awards are nearly upon us and we are all very excited to finally find out the winners. There's still time to book your tickets and join us on Friday 15th November to celebrate this event. [Visit our website](#) to find out more, we hope to see many of you there! Don't forget to take a look at our [Finalists' Page](#), to learn more about the 2024 entries.

### Constructing Excellence Conference 2025

The Constructing Excellence Annual Conference, taking place on Wednesday 29th January, will focus on **'Delivering Excellence: Better for the Planet, Better for Society, Better for the Bottom Line'**. This event is now on sale and we highly recommend booking early to avoid disappointment: [book your space here](#).

We're still seeking sponsors to help us shape this key event in the Constructing Excellence calendar. If your organisation would be interested in [sponsorship](#), please do [get in touch](#).

## Upcoming Events

### Offsite Manufacturing & Technology: Building Safety Act

Join us for the next [Offsite Manufacturing & Technology session](#), on Monday 11th November, which will focus on the Building Safety Act.

We will be focussing on the Building Safety Act, with input from **Phil Henry**, *Genuit Group*, **Jim Cowell**, *Algeco*, and **Andrew Crooks**, *Stroma Building Control*.

We will be exploring how the Building Safety Act impacts modular/offsite manufacturers, particularly roles such as principal designer, contractor and more.

We will also discuss how the BSA will influence contractual changes, stage 3 design checks and other changes and implications that may arise.

---

### **Energy Transition Scoping Session**

Energy Transition is one of the most significant issues facing societies around the world. The need to decarbonise and move away from fossil fuels has never been greater and the rush to deliver projects is hugely challenging from a capacity and capability perspective. This requires us to organise differently to set projects up for success and deliver productively.

This requires genuine collaboration at a project and macro level – something that ECI and Constructing Excellence have been advocating for some time.

Join us on 12th November to consider how we bring our collective expertise and experience to drive forward excellence in the delivery of energy transition. [Book your space here.](#)

---

## **Events**

These meetings are open to national members of Constructing Excellence and invited guests. Contact [helpdesk@constructingexcellence.org.uk](mailto:helpdesk@constructingexcellence.org.uk) for more detail.
