

Constructing Excellence National Awards 2026 Sponsorship Opportunities

Friday 6 November 2026

Celebrating Collaboration. Driving Innovation. Delivering Value.

AWARDS OVERVIEW

Now in their 20th year, the Constructing Excellence Awards stand as a national showcase of the very best in the UK built environment. Over two decades, the Awards have grown into one of the most anticipated industry events, regularly bringing together more than 500 leaders and innovators to celebrate outstanding achievement across the sector.

Rooted in the Constructing Excellence principles, the Awards highlight how collaboration, innovation and industry transformation are being delivered in practice. They recognise and champion the projects, organisations and individuals who are setting new benchmarks and driving meaningful change. Winners from our regional programmes progress to the National Finals, where they are assessed by an expert judging panel with proven experience in delivering improvement and advancing best practice across the built environment.

The 2026 Constructing Excellence National Awards will take place on Friday 6 November 2026.

This milestone event offers a powerful platform for organisations who want to be seen as forward-thinking leaders within the construction sector. With 14 categories celebrating the very best of the best, the Awards provide unrivalled visibility for those committed to shaping a more collaborative, sustainable and high-performing industry.
